

Red Fox • Dawaco Guduud SOMALI

Wetlands are Wonderful!

Wetlands help keep our drinking water clean.

Wetlands are home to wildlife around the world. This includes one third of North America's threatened and endangered wildlife species.

Wetlands store water during droughts.

Wetlands help to reduce flooding.

Wetlands are important resting, feeding and breeding areas for migratory birds.

When we protect wetlands, we keep the whole planet healthy.

Ducks Unlimited Canada is an environmental charity made up of people who know this. We have worked with others to conserve wetlands since 1938. We know good things happen when people work together!

Get to know your local wetlands - you will love them!

Dooxooyinku waa kuwo heer sare ah

Dooxooyinku biyaha aanu cabno ayay nadiifiyaan

Dooxooyinku waxay hoy u yihiin duur-jooga caalamka oo dhan; Waxaana ka mid ah saddex dalool waqooyiga Amerika oo xayawaanatka kala jaadka ah oo ay cabsi ama halis ku sugan yihiin

Dooxadu xilliyada jilaalka biyaha ayay keydiyaan

Dooxooyinku waxay yareynayaan fatahaadda daadadka

Dooxooyinku waxay muhiim u yihiin, nasashada, quudinta iyo meelo (hoy) ay ku tarmaan shimbiraha caalamka u kala goosha.

Markanu daryeelno Dhulka qoyan, waxaanu kaalmeynaynaa caafimaadka meeraha oo dhan.

Ururka loo yaqaano "Ducks Unlimited Canada" waa urur samafal ah, kana sameysaan dad arrinta fahamsan. Tan iyo 1938kii ayaanu dadyow kale la shaqeynaynay si aanu u daryeelno Dooxooyinka. Waxaanu ognahay arrimaha wanaagsani inay ka dhashaan, marka dadku si wada jir ah u wada shaqeyaan!

Iskuday in aad wax ka ogaatid dooxooyinkiina – Waad jeclaan doontaa e!

Red Fox

Foxes appear in stories from around the world. They are usually seen as clever troublemakers but perhaps that is simply because they are hunters that need to be able to sneak up on their prey.

The red fox is found across Canada. They dig deep dens with several entrances in which they have their young. The family stays together hunting until the fall when the pups grow up and move out on their own. Foxes eat mice, squirrels and rabbits but also other foods such as insects, crayfish and plants. Just like other animals, foxes have to watch out for a hungry predator, such as a coyote or bobcat, which might look upon them as dinner!

To create your own animal model

follow the steps on the back page. But wait, wetlands are full of life! There are other creatures in this series, each with its own story. Visit our website at education.ducks.ca to download other wildlife models. Then you, your family or friends can create more creatures and even build your own wetland.

Dawaco Guduud

Dawacoyinku sheekooyinka caalamka oo dhan ayay ku jiraan; Waxaana loo arkaa kuwa dhibloow ah oo wax garad ah, haseyeeshe waxaase la arkaa inay arrintaasu fududahay, maxaayeelay, waxay yihiin ugaarsato u gabbanaya waxay ugaarsanayaan. Dawacada guduudan Kanada oo dhan ayaa laga helaa; Waxay qotaan godad dhaadheer, markasay dhowr meelood oo laga galo u sameeyaan, halkaasna dhashooda ayay ku haystaan. Qoyskooduna illaa iyo deyrta way isla joogaan wayna wada ugaarsadaan markaas oo dhashoodu koraan, iskoodana dibadda u soo baxaan Dawacoyinku waxay cunaan jirka, dabagaalaha iyo Bakeylaha, waxay kale oo cunaan cayayaanka, kalluunka iyo dhirta: sida xayawaanada kale, dawacoyinku waa inay iska ilaaliyaan bahallada gaajeysan, oo ay ka mid yihiin uubatooyinka, ama bisad dibadeedka, kuwaas oo laga yaabo inay casho ka dhigtaan.

Si aad u sameysaan warqadda nooc moodada ah

Bogga dambe waxaad ka tixraaci kartaan sida aad u sameysaan laheydeen mooda xayawaanada; Haseyeeshe bal u kaadiya; dooxada noole badan ayaa ka buuxa; Waxaa kale oo jira nafley kale oo kuwan la mid ah oo midwalba sheeko u gaar ah leh. Si aad uga soo minguursataan noocyada kale oo ugaadha ama xolaha duurjoogga, Internetkeena booqday www.education.ducks.ca/ Markaas kadibna, adiga, qoyskaaga ama saaxibadaa waxaad abuuri kartaan noole u eeg badan iyo inaad xataa sameysataan dooxa aad iska leedihiin.

Working Together
Wada shaqeyn

TEACHERS This series is part of Project Webfoot's Wetlands and the World series, designed to explore wetlands across cultures and provide resources for English language literacy development. Animal Models: Robert Van Nood, based on an original concept by Monica Zavgaj, Ramsar Convention Secretariat.

To make your paper model

You will need: scissors, glue for paper (glue sticks work well)

1. Cut out all pieces.

2. Fold head in three steps as shown above.

3. Cut & glue shoulder darts.

4. Glue tabs together under body.

5. Glue tips of nose and ears together.

6. Glue rump pieces together.

7. Cut slits in tail pieces and glue pieces together along outside edges.

8. Slide tail on to rump and glue in place.
